LinkedIn: linkedin.com/in/shobhit-poddar | GitHub: github.com/Shobhit-Poddar

PROFESSIONAL SUMMARY

Software Engineer with expertise in Full-Stack Development and Cloud Computing. Proficient in the MEAN stack, building scalable REST APIs, and deploying cloud-native applications via AWS/GCP and CI/CD pipelines. Proven record in optimizing backend performance and applying Machine Learning (TensorFlow) to solve complex problems.

EDUCATION

MSc Advanced Computer Science

2023 – 2024

University of Liverpool, UK

Modules: Machine Learning, Cloud Computing, Big Data Analytics, Distributed Systems.

B.Tech / BSc Computer Science

2018 – 2022

Suresh Gyan Vihar University, India

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, Java, C++, Shell Scripting
Web & Backend: Node.js, Express.js, Angular, MongoDB, REST APIs, SSR, WordPress
Cloud & DevOps: AWS (EC2, S3, RDS, IAM, VPC), Docker, CI/CD, Git, Postman, Jira
AI & Tools: TensorFlow, Hugging Face, Linux, MySQL, CloudWatch

PROFESSIONAL EXPERIENCE

Technical Operations Specialist

May 2025 – Present

Ford Motor Company | Liverpool, UK

- Maintain internal POS kiosk systems, ensuring 99.9% uptime and high-integrity data logging for billing.
- Conduct root-cause analysis and Level 2 troubleshooting for software issues, reducing operational downtime.
- Monitor transaction data flows and system logs to identify and resolve discrepancies in real-time.

Software Developer

Oct 2022 – Sep 2023

RBD Publications | Jaipur, India

- Engineered internal automation tools using the MEAN stack, improving workflow efficiency by 25%.
- Developed a centralized educational platform for institutional clients, managing the full SDLC.
- Collaborated in agile sprints to deliver customized software solutions and technical documentation.

Junior Software Developer

Apr 2022 – Aug 2022

Felicity Care | Jaipur, India

- Optimized Node.js RESTful APIs, achieving a 40% reduction in server response times via query tuning.
- Improved SEO and frontend performance through Server-Side Rendering (SSR) and asset optimization.
- Mentored junior interns on debugging standards and code maintainability.

DevOps Engineer

Jul 2021 – Feb 2022

Arustu Technologies | Jaipur, India

- Managed secure AWS infrastructure for enterprise clients, ensuring high availability and scalability.
- Implemented Docker containerization and automated CI/CD pipelines to streamline deployment cycles.

KEY PROJECTS & AWARDS

Mental Health AI Chatbot (MSc Dissertation): Built a full-stack system with Python/Angular. Integrated ML models (TensorFlow/Hugging Face) for emotional tone analysis and conversation continuity.

Bentley iTwin4Good Top 12 (England & Ireland): Awarded for excellence in technical innovation and social impact project (2023-2024).

Certifications: AWS Certified Developer Assoc. | GCP Assoc. Cloud Engineer | MongoDB Certified Dev.
